

Lot 210

Redwood x Fromage, by Flying Spur Gelding

Prepared by Katrina & Simon Alexander

Type	A good sized horse with natural muscle and good balance. He has a good girth and top line with a solid middle. Will develop into a nice middle distance type.
Temperament	Lacks a bit of confidence but improved throughout the prep. A genuine horse that is happiest when working. Good to work with, if taken calmly, and learns well. Likes routine and consistency.
Work ethic	This horse has a good attitude to work and is relaxed in company. A good striding horse that is relatively straight forward to ride. He copes well with a busy track environment and relaxes well after work. Will develop into a nice horse with potential in time.
Appetite	A reliably good eater. May have left feed once or twice but gets back on track quickly. Holds condition well.
Breeze Up	Coped very well on the day. He got a little disorganised in the early stages and had to be steadied to balance up but went to the line well in the final stages.
Jockey	Darren Danis \ “Well behaved and will be a nice horse when he puts it all together.”
Post Breeze Up	He has pulled up well with no signs of any soreness. He left a small amount of feed but has eaten up since.
