SURGERY REPORT

Lot 416

Identification: **Pastrana – Ocean Park 2021 filly**
Brands: Left shoulder: WS
Right shoulder: 19 over 1
Microchip: 985125000125267
Vendor: Waikato Stud

On 20 August 2021 the above-described filly underwent surgery to repair a ruptured bladder.

Exploratory laparotomy revealed a 1cm tear on the dorsal aspect of the bladder. The umbilical remnants and the compromised portion of the bladder were resected. The bladder wall was closed routinely in two layers, the abdomen was lavaged with sterile saline and the abdominal wall was closed routinely in three layers. Recovery from anaesthesia was uneventful and the foal was managed with systemic antibiotics, IV fluids and a urinary catheter to prevent the bladder from filling with urine for several days until urination and bloodwork normalised.
